This proposed information collection was previously published in the Federal Register, Vol. 77, No. 106, on June 1, 2012, pages 32648-32649 and allowed 60 days for public comment. One public comment was received from the Association for Research in Vision and Ophthalmology (ARVO). The purpose of this notice is to allow an additional 30 days for public comment. NIH may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

PROPOSED COLLECTION: Title: CareerTrac. Type of Information Collection Request: REVISION (OMB NO.: 0925-0568). Need and Use of Information Collection: This data collection system is being developed to track, evaluate and report short and long-term outputs,

outcomes, and impacts of international trainees involved in health research training programs--specifically tracking this for at least ten years following training by having Principal Investigators enter data after trainees have completed the program. The data collection system provides a streamlined, web-based application permitting Principal Investigators to record career achievement progress by trainee on a voluntary basis. FIC, NIEHS, NCI, NLM and NIGMS management will use this data to monitor, evaluate, and adjust grants to ensure desired outcomes are achieved, comply with OMB Part requirements, respond to congressional inquiries, and guide future strategic and management decisions regarding the grant program.

Frequency of Response: Annual and periodic. Affected Public: None. Type of Respondents: Principal Investigators and/or their administrators funded by FIC, NIEHS, NCI, NIGMS, and NLM. The annual reporting burden hours are as follows:

Type of Respondents	Number of Respondents	Response Frequency	Average Time per Response (in hrs)	Total Annual Hour Burden
Principal Investigators	385	30	30/60	5,775
TOTAL	385	30	30/60	5,775

There are no capital, operating, or maintenance costs.

REQUEST FOR COMMENTS: Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the

information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.
